How to Use

- See How to Use IT Professional Services Contracts

Category Description

The scope of services available under this category are as generally described using the language and intent stated in the related solicitation. Awardees in this category provided sufficient credentials, experience, and know-how in this category.

Solicitation Text

Vendors should possess the capability to provide either full lifecycle services or ad hoc problem-solving for commercial-off-the-shelf, SaaS, or cloud-based systems and applications which may include initial implementation, upgrade management, and all related services. Edge Members and Participants have systems and applications in a variety of lifecycle stages. It is anticipated that Respondents in this category would have significant bench strength to meet the long-term needs of major projects or specific skill sets for meeting specialized needs related to implementation, upgrades, and integration services.

- Any additional services under this category not covered above.
